

DEV SHARMA

Full-Stack Developer | Cloud & DevOps

Uttarakhand, India | +91 9599503440 | devsharma08072004@gmail.com | <https://linkedin.com/in/dev-sharma-708074321> | <https://github.com/Devsharma08> | <https://devsharma.dev>

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on MERN/MEAN internship and project experience. Designed REST APIs, authentication flows, cloud apps, and PDF tools. Used Agile/Scrum sprints, unit testing, and DevOps workflows. Projects include microservices, Docker, AWS, PostgreSQL, and Prisma.

TECHNICAL SKILLS

Focus Areas: Full-stack web apps, REST APIs, authentication, microservices, scalability, cloud deployment, DevOps, CI/CD

Languages: JavaScript (ES6+), TypeScript, Python, Java, C, C++, SQL

Frontend: React.js, Angular, Next.js, HTML5, CSS3, Tailwind CSS, Vite, Monaco Editor, responsive design

Backend/API: Node.js, Express.js, REST APIs, GraphQL, WebRTC, Socket.IO, JWT, RBAC

Databases/ORM: MongoDB, PostgreSQL, MySQL, Redis, Prisma ORM, Mongoose

Cloud/DevOps: AWS (EC2, S3, Lambda, ECR), Docker, Docker Compose, Kubernetes, Terraform, GitHub Actions, Vercel, Render, Linux

Testing/Methods: Unit testing, TDD, Agile, Scrum, regression testing, sprint reviews

Tools: Git, Postman, Oracle Cloud, FFmpeg WASM

EDUCATION

B.Tech, Computer Science & Engineering | BTKIT Dwarahat, Almora, Uttarakhand | 2023 - 2027

CGPA: 7.2 / 10

Class XII, Computer Science | PSM Public School, Delhi | Graduated 2022

EXPERIENCE

Eascode | Full-Stack Developer Intern | Remote | Jan 2026 - Mar 2026

- Refactored React rendering paths and tuned Node.js API flow; response time on key workflows dropped by 20%.
- Redesigned PDF generation for 100% template accuracy across tested export cases.
- Managed 30+ unit/regression test cases and documented 15+ workflow fixes for sprint review.
- Used clear communication in Agile/Scrum ceremonies to track 15+ handoff notes, edge cases, and expected outputs.

MobileCoderz | MERN / MEAN Stack Intern | Remote | Jul 2025 - Aug 2025

- Delivered 20+ sprint features across React, Angular, Node.js, Express, and MongoDB.
- Implemented 2-layer access control with JWT authentication and RBAC middleware.
- Led reusable UI pattern cleanup that improved delivery speed by 15% across assigned sprint work.

PROJECTS

BraceRCE | Remote Code Execution IDE & Telemetry Engine | Apr 2026 - May 2026 | bracerce.devsharma.dev

React, Node.js, Docker, AWS, PostgreSQL, Prisma, Monaco, GitHub Actions

- Implemented 3 core modules: Monaco editor, Docker executor, and PostgreSQL run history.
- Added 2 protected boilerplate regions, live execution feedback, and durable telemetry logs.
- Architected a 3-tier decoupled microservices flow across Node.js API, Prisma data access, and isolated Docker containers.
- Reduced runtime risk with 6 controls: rate limits, stripped capabilities, read-only mounts, tmpfs, VM masking, and header shielding.
- Configured GitHub Actions CI/CD checks for build validation and repeatable deployment handoffs.

GifLab | Browser-Native GIF Platform & WASM Editor | Sep 2025 - Dec 2025 | gif-lab.vercel.app

React, Vite, Tailwind, FFmpeg WASM, Cloudinary, Giphy API

- Released a responsive GIF/video platform that serves MP4 streams instead of heavy GIF files.
- Integrated 3 browser-side edit tools: text, stickers, and filters through FFmpeg WASM.
- Used 3 delivery features: Cloudinary CDN compression, faster downloads, and IntersectionObserver infinite scroll.

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Cloud: OCI Generative AI Professional, OCI AI Foundations Associate, OCI Foundations Associate (2025-2026).
- LeetCode: Solved 190+ data structures and algorithms problems across arrays, strings, trees, graphs, and dynamic programming.
- National Hackathon Finalist: Led team DeepShiva to the national finals; trained a tourism recommendation model and presented to the Governor.
- President, Computer Coding Club (BTKIT): Demonstrated leadership through 8 workshops and 4 coding contests for 120+ students.
